

OWN YOUR DATA. SHARE YOUR INSIGHTS. POWER YOUR AI FUTURE.

Data is sensitive, protected, and not meant to be shared. As a result, collaboration stops and organizations are left making decisions with incomplete information.

Aralia is a data platform that lets organizations share AI-ready insights without giving up data ownership and connect with partners to build a trusted ecosystem.

Aralia AI-Ready Data Ecosystem

Ask questions across distributed enterprise datasets and receive grounded, data-driven answers without centralizing raw data.

DATA SOVEREIGNTY

100% On-Prem. Retain full control of your data.

DATA GOVERNANCE

Ensure data quality, integrity, and compliance.

DATA PROVENANCE

Trace every insight to its source and lineage.

MCP / AI AGENT

Sources: Malaysia Open Data Portal: DOSM. Note: 2021–2024 GDP and 2023–2024 Gini contain synthetic data for demo purposes.

With **Aralia**, your data is always ready for AI,
for collaboration, and for what comes next.

**LOOKING FOR PILOT PARTNERS.
